Duty of Disclosure

Under the Insurance Contracts Act 1984 (the Act), the Insured has a Duty of Disclosure. - You do not have to tell us about any matter
 - that diminishes the risk
 - that is of common knowledge
 - that the Company knows or should know in the ordinary course of their business as an Insurer, or
 - which the Company indicates they do not want to know.

- If you do not tell the Company

If the Insured does not comply with its Duty of Disclosure the Company may reduce or refuse to pay a claim or cancel this Policy. If the non-disclosure is fraudulent the Company may treat this Policy as never having worked.

Cooling-off information

If the Insured wants to return their insurance after their decision to buy it, they may cancel it and receive a full refund. To do this the Insured may notify their Financial Services Provider electronically or in writing within 21 days from the date the Policy commenced.

This cooling-off right does not apply if the Insured has made or is entitled to make a claim. Even after the cooling off period ends, the Insured still has cancellation rights however the Insured's Financial Services Provider may deduct certain amounts from any refund for administration costs or any non-refundable taxes.

If Policy is for an event that will start and finish within the 21 day cooling-off period, you can only exercise your right before the event starts or the expiry of the cooling-off period, whichever is the earlier. For example, for travel insurance, the commencement of the journey is the event.

Other party's interests

The Insured must tell Australis Group Underwriting of the interests of all parties (e.g. financiers, owners, lessors) who will be covered by this insurance. The Company will protect their interests only if the Insured has told us about them and Australis Group Underwriting have noted them on the Policy Schedule.

Preventing our right of recovery

If the Insured has agreed not to seek compensation from another person who is liable to compensate them for any loss, damage or liability which is covered by this Policy, the Company will not provide cover under this Policy for that loss, damage or liability.

Average/underinsurance

The additional insured items for Existing Structures and for items of plant, equipment, tools, cranes, hoists and mobile construction machinery are subject to average/underinsurance. The Insured must insure Existing Structures for the full replacement value and items of plant, equipment, tools, cranes, hoists and mobile construction machinery for the current market value and if the Insured does not the Company will only pay the proportion of the claim that the sum insured bears to that market value.

How Goods and Services Tax affects any payments the Company makes

The amount of premium payable by the Insured for this policy includes an amount on account of the GST on the premium.

When a claim is paid, the GST status of the Insured will determine the amount paid.

When the Insured is:

- a) not registered for GST, the amount paid is the sum insured limit of indemnity or the other limits of insurance cover including GST.
- b) registered for GST, the Company will pay the sum insured/limit of indemnity or the other limits of insurance and where you are liable to pay an amount for GST in respect of an acquisition relevant to your claim (such as services to repair a Damaged item insured under the Policy) we will pay for the GST amount.

The Company will reduce the GST amount paid by the amount of any input tax credits to which the Insured is or would be entitled if the Insured made a relevant acquisition. In these circumstances, the input Tax Credit may be claimable through Business Activity Statement (BAS) of the Insured.

The Insured must advise Australis Group Underwriting of their correct Australian Business Number & Taxable Percentage.

Any GST liability arising from the incorrect advice of the Insured is payable by the Insured.

Where the settlement of a claim is less than the sum insured/limit of indemnity or the other limits of insurance cover, the Company will only pay an amount for GST (less the Insured's entitlement for Input Tax Credit) applicable to the settlement. This means that if these amounts are not sufficient to cover the Insured's loss, the Company will only pay the GST relating to their settlement of the claim.

The Company will (where relevant) pay the Insured on their claim by reference to the GST exclusive amount of any supply made by any business of the Insured's which is relevant to their claim.

GST, Input Tax Credit (ITC), Business Activity Statement (BAS) and Acquisition have the same meaning as given to those expressions in A New Tax System (Goods and Services Tax) Act 1999 and related legislation as amended from time to time.

Taxable Percentage is the entitlement of the Insured to an Input Tax Credit on their premium as a percentage of the total GST on that premium.

Australian Terrorism Insurance Act 2003 Notice

The Insurers have treated this Insurance (or part of it) as an Insurance to which the Australia Terrorism Insurance Act 2003 (ATIA) applies.

ATIA and the supporting regulations made under the Act deem cover into certain policies and provide that the Terrorism exclusion to which this Insurance is subject shall not apply to any "eligible terrorism loss" as defined in ATIA.

Any coverage established by ATIA is only in respect of any "eligible terrorism loss" resulting from a "terrorist act" which is a "declared terrorist incident" as defined by ATIA. The Terrorism exclusion to which this Insurance is subject applies in full force and effect to any other loss and any act or event that is not a "declared terrorist incident".

All other terms, conditions, insured coverage and exclusions of this Insurance including applicable limits and deductibles remain unchanged.

If any or all of the Insurers have reinsured this Insurance with the Australian Reinsurance Pool Corporation, then any such Insurers will not be liable for any amounts for which they are not responsible under the terms of ATIA due to the application of a "reduction percentage" as defined in ATIA which results in a cap on the Insurer's liability for payment for "eligible terrorism losses".
